

CLEAN ZONEZ

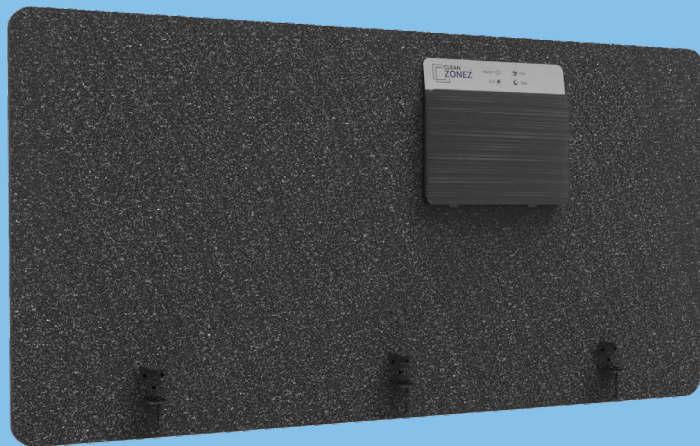

CLEAN ZONEZ

Now more than ever, organizations are in need of solutions that effectively increase the safety of the workplace. Clean Zonez Panels create a physical barrier to separate workers while cleaning the air of each individual workspace. Clean Zonez Panels can be installed at 18" or 24" above the worksurface.

Clean Zonez Panels' patent pending technology combines physical blocking between coworkers with an air filtration system to treat air at the point at which it is exhaled, coughed or sneezed. Intake fans pull air into five layers of air filtration, including HEPA filtration and UV-C sterilization. UV-C irradiation is considered to be a highly versatile viral inactivation step that should be included in a purification process.

- Thermoformed PET panels can be adjusted to 18" or 24" above the worksurface, creating a physical barrier
- The PET panel creates a more desirable workspace by absorbing noise and minimizing distractions
- Intake fans pull air through a HEPA filter removing allergens and harmful bacteria
- UV-C light treats the air, inactivating harmful viruses
- Soft-touch control panel allows users to control fan speed, filtration settings, sleep mode, and power

FEATURES

CLEAN ZONEZ PANELS are constructed using three layers of Thermoformed Polyester Fiber Acoustic panel (PET) molded around an air filtration system with intake / exhaust fans, HEPA filter, and UV-C light. Steel plates line the interior of the panel providing panel rigidity and stability.

AVAILABLE PRODUCTS:

Model	Dimensions	Weight
4' Panel w/Filtration	48" (W) x 30" (H) x 5.1" (D)	15.2 Pounds
5' Panel w/Filtration	60" (W) x 30" (H) x 5.1" (D)	17.2 Pounds
Side Panels	18" (W) x 30" (H) x .75" (D)	9.1 Pounds (Pair)

HARDWARE:

Heavy duty steel desk mounting clamps with protective rubber pads accommodates up to a 2" desk thickness

POWER: (Wired Power Cord Included)

Power supply: 110v AC
Rated power: 8.5W
Rated frequency: 60Hz

AIR FLOW:

CFM: 65CADR: 64.98, Application Area: 100 sf

WARRANTY:

1-year for electronics, 3-year for panel

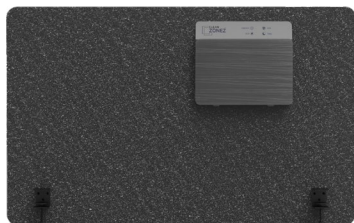

FILTRATION:

Layer	Filtration Layer	Function
Layer One	Primary antimicrobial filter	Filter large particles
Layer Two	High efficiency true	Filter PM2.5, allergens, bacteria
Layer Three	HEPA filter	Eliminate smells and harmful gas
Layer Four	Activated carbon filter	Resolve formaldehyde, TVOC
Layer Five	Cold catalyst filter UVC sterilization	Kills bacteria, inactivates viruses

ASSEMBLY AND INSTALLATION TIME: One person, 15 minutes

SOLUTIONS

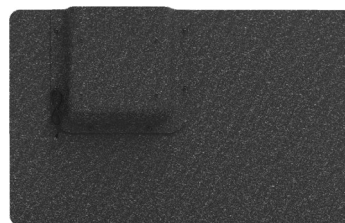

4' CLEAN ZONEZ PANELS WITH AIR FILTRATION

CG - Charcoal Gray

LG - Marble Light Gray

Rear View of Panel

Includes: steel desk mount hardware (2), steel plate inserts (2), and treaded screw holes

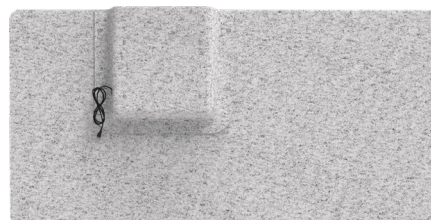

5' CLEAN ZONEZ PANELS WITH AIR FILTRATION

LG - Marble Light Gray

CG - Charcoal Gray

Rear View of Panel

Includes: steel desk mount hardware (3), steel plate inserts (3), and treaded screw holes

CLEAN ZONEZ HANGING AIR FILTRATION SYSTEM
